**STATEMENT REGARDING SEQUENCE LISTING**

Dear Sir:

In response to the Communication from the Examiner mailed on April 28, 2003, Applicant submits herewith a paper copy of a Sequence Listing as required by 37 C.F.R. 1.821(c), and a copy of the same Sequence Listing in computer readable form as required by 37 C.F.R. 1.821(e). The content of the paper copy and the computer readable copy of the Sequence Listing are the same.

As noted by the Examiner, the Sequence Listing previously mailed to the Patent Office contained a few typographical errors. Specifically, the sequences listed as SEQ ID NO: 1-4 were not the same as those listed in Figures 1A and 1B of the application. Applicants have examined all sequences in the Sequence Listing and made the corrections necessary to ensure that the

sequences in the Sequence Listing are now the same as those in the application. Additionally, applicants have added to the Sequence Listing, sequences representing: HPRT1 primer as SEQ ID NO. 11 (in specification on page 15); HPRT2 primer as SEQ ID NO. 12 (in specification on page 15); and PepTag peptide C1 as SEQ ID NO. 13 (described in Example 7 of the application specification).

The sequences in the Sequence Listing are the same as the sequences in the text and the figures of the application as filed. Accordingly, the Sequence Listing adds no new matter.

Applicants respectfully request entry of the Sequence Listing into the case.

Applicants have separately filed an amendment to place the proper SEQ ID NO. next to the sequences in the application specification.

Respectfully submitted,

Dated: 5/21/03
